

DALE OXYGEN, INC.
The Gas & Welding Experts Since 1939

Magnetic Manhole Dolly and Valve Box Lifter

“In a world of back-breaking hard work filled with workers compensation claims for back and finger injuries, Magswitch provides an affordable alternative that makes handling manhole covers easier and safer for your employees. A simple lightweight system utilizing a dolly and strong Magswitch magnet enables fast setup and quick removal of manhole and utility covers. When considering the cost of claims, cities can easily reduce these costs with the Magswitch system and provide a safer work environment for their employees.

The Magswitch Magnetic Manhole Lifter can radically reduce the chance of injury by lifting covers, the #1 workers compensation claim. Plus, insurance companies might offer discount rates to your customers, or help them with the purchase price, because it creates a safer work environment for employees!” (Magswitch Catalog)
